Good morning loving friends.

My challenges in dealing with liars continues. My Case worker, supposedly on my team to successfully return me to society, this week changed her whole story about the transfer. PLEASE PRAY FOR HER AND FOR ME IN THIS SITUATION. Handling this properly with patience, charity, understanding and love of the LORD is far more important than any possible transfer. It just seems so senseless for a staff member to play such silly games; and even worse if she is just so incompetent that she does not even remember what she said to whom such a short while ago. Of course to some 6 weeks borders on eternity for remembering, or keeping their word.

When we first discussed transfer in September she was all enthused and happy with great reassurrances that i would easily be transferred to Herlong. Then 2 weeks later, there was a moratorium or hold due to disciplinary situations in the Western Region; only Taft was available. A week ago she told me everything was done, that the assignment desk had told her to go ahead and request Herlong. Even though last month she told me the local process took 5 days; Thursday that changed to 2 weeks, and the 3 week approval process is now stated as 30-45 days. I guess that is the real reason why she never gives us copies of what she is doing, even though the rules require it.

Yes; I know I have learned this lesson many times with bureaucrats at every level. I am always hopeful of finding conscience and honesty inpeople, even when their job is bureaucrat.

Lots of new rumors flying around about more changes coming in BOP policy on halfway house and good time inJanuary. The Eastern District of California has been the best one for early transfers to halfway house, or house arrest. That is just one of the advantages I can get from Herlong. Electronic research, wordprocessor, free photo copies, liberal furlough policy, and even better food are all blessings I seek. If I can duplicate the progress of others I could be to halfway by April or May of 2009 instead of April 2011; that seems like a big deal to me. And yes; it is still most likely that I will halfway at Phoenix. That is just a little bit of personal pride and insecurity on my part, thinking I can do a better job of handling the reentry situation from Phoenix where I lived and worked for 34 years rather than Boise, 200 miles from Karyn, Dallas and the Children, in a city I have only visited once for a day.

I am certain God has a perfect plan and all of this will work for my good. Sometimes I wimpishly wish he could give me more advanced knowledge of his wonderful plans and purpose.

The visiting pastor a couple weeks ago tried to sabotage my ideas and plans. He is aware that I have become the elder of this congregation; and as he was leaving, as he shook my hand he said "keep them together Jimmy". HMMH!

Yes; of course, I can do time here, there or yonder with little difference; and wherever i may be sent I will continue to witness for KING JESUS both in my words and in my actions.

I remain highly blessed among men, and greatly priveleged to serve the everliving, wholly righteous KIng of kings.

Work is really slow and boring; so I have a lot of time to study, read, meditate, and prepare for what may lie ahead of me. I frequently go back to Colloshans 3 and the admonition to do all my service to every master or captor as unto the LORD.

Most of those who declare christianity here are really doing poor service unto the LORD and it shows in their job attitude for the jailers. To go about every day with joy and gladness, keeping the praise of God and King in my mind and on my lips is a duty and a blessing in service to my LORD. Happy was the best of the dwarfs; because he came and went to work happy, showing his blessings, and the love of service. I am not quite that good but i do know that others do notice the manner in which I conduct myself, and a few are strengthened in what they must do in honoring God and his word made flesh named Jesus Christ.

Twice this week one man has come around to my cellie to ask the same question; WHY? Why can't muslem, Jew, Catholic, and Christian just get along? I try to stay out of their conversation because I was not invited; and really because teh questioner does not want to hear my answer. He is seeking in all the wrong places for a simple answer. We either rebuke a lie or adopt it. If you want to adopt false doctrine, the truth is not in you. I am charged to love my enemies but to slay HIS enemies in HISpresence; and seeing that he is omnipresent; that means everywhere all the time. I still look to the example of how Jesus slew Saul, and made Paul as a result.

Christians can never just get along with anti-Christs of any false doctrine that denies that Jesus Christ is the Mesaiah, the only begotten son of God, who was dead but now lives, and reigns as King of Kings, Lord of lords, our single and only High Priest forever.

As soon as Muslem and Jew; catholic and heathen bow their knee to confess Jesus as LORD and seek his great merciful forgiveness of grace through faith we will get along just fine. Until then ther will be wailing and gnashing of teeth.

The terms of surrender to JESUS as King, LORD and savior are not negotiable; ALL or nothing at all. Pretty simple really.

And the truth is that there are few calling themselves Christian that have ever even considered surrendering all. ALL is an important word and concept; all sin must be forgiven to have any hope of entry into the KINGDOM.

So just how is your ALL doing. Prison and the destruction of home and family helped me get a lot more of my all covered; my all is very small; just a little junk to trade for his great and magnificent mansion. HMMH? I sure get the best of this deal. I get to really trust HIM for my future. How about you???

PARRISITES A PLENTY! American style...

A dozen years ago in a meeting in Dallas one of those \$400 per hour suits we so often worship and entrust with all knowledge for legal affairs told a group of 40 that all lawyers are parraistes on Society.

We all laughed and cheered; an honest answer out of a lawyer seems impossible most of the time.

One simple truth is from Mistletoe to Candadiasis Albacans; and even lawyers; the power and reach of the parassite will always grow until it kills the host.

Law and the "Rule of Law" established through the limitations imposed in the declaration and the Constitution form the host; that is the substantial defense of your liberties granted by Almighty God. Lawyers who profit only through parrasitic perversions of the truth are no different than any other teacher of false doctrines. All of those doctrines in the Christian Religion, and Anti- Christian theology of man destroy your rights to the truth; for their own profit.

Adam Smith's Wealth of Nations, quoted by the Supreme Court in Butchers Union shows that the founders, lawyers, and Court for the first 100 years understood that protecting and preserving your individual rights and property in life, liberty, and the persuit of happiness was acknowledges as the only to build great National and individual wealth. The property right you have in your labor was never to be touched by the federal government. All taxation of property was reserved to the states.

The 1890 was a great decade for the parrisites called lawyers. Oh yes; I am certain your parrisite is the only good one; so thought the old oak tree, host to the yellow ribbon and the mistletoe. The ribbon was a temporary decoration, and the parricites drained the life force to stunt the growth and ultimately kill the host. Lawyers got the greatest infestation possible: Corporations, the artificial tree, was given equal citizenship, and legal rights under the pretense of the 14th Amendment. The host and property you had in your Habor, the source of all property and wealth was degraded to equality with a piece of paper. No wonder abortion is so easy for lawyers to; corporations can be created by just a few pieces of paper and easily liquidated with the shreader. Human life began to loose its value to the gain of its host. Recessions, and depression soon followed the host being infested with parrisites.

Statistically, America has some 35 times as many lawyers per million people as Japan; 20 times those of United Kingdom. HMMH!

One of our greatest growth industries, aka parrisitic infestations, is law, law enforcement, federal invasions of the states as more parrisites driven by lawyers greed to destroy the host.

Whether it was a group of lawyers or bankers, their nearest cousin in parrisites that orchestrated the War upon Certain states to amputate that infested limb we can oney guess; but 11 were amputated, and before being grafted back in had to be thoroughly infested with the federal parisite; only conditional statehood was available, and great advantage was given to the lawyers.

Of course there has never been a greater boom to the parrisites than the great depression that fostered the raw deal.

Before I began paying attention in the 1980s the lawyer parrisites had full control of all three branches of government; and all 50 of the states in all branches. Even Justice writes its rules for its false religion to give great prejudice to that group cursed by Jesus; "woe unto ye lawyers" for you hide thekeys of knowledge from the people. DUH! It is often said that knowledge will forever rule ignorance. Even the oak tree is admored by its parrisites that continue to grow and flourish even while the tree is resting in winter. We love that beautiful killer parrisite; because under it we can kiss our target. Protected and covered in ignorance by our parrisites, we get to pretend all is well for the time of a kiss; while the parriaites increase their hold, and demand upon the host, guaranteeing its sooner death.

Whether our lawyers will be the death of the nation as we pretend we want it to be under their false doctrine forced upon we as host by our pretend servants to maintain our beauty and desirability while we are dormant for decades, or a century.

I readily confess, when IRS recruited me to the persuit of knowledge I too was completely under the vail of lawyers and government trained accountants that guaranteed my servitude and destruction. When my parrisites told me to just pay what I did not owe as the cheapest way to deal with the federal parrisites; I paid. The bleeding of conscience and dedication to Nation had begun. Rule of law had been scrapped for the convenience of avoiding this fight for truth and freedom.

How now should we address our great parrisitic infection?

President Obama, and the demoncrazy congress dedicated to the

parrisites will add a trillion dollars of parrisitic bleeding while

we sleep and the economy is dormant. HMMH! How long will the host

survive? The late great America; the Nation whose God is the LORD???

For over 27 years I have diligently sought peaceful redress with my government for grievance, as provided in the First Amendment. To date I remain unsuccessful.

I began this quest for truth and rule of law immediately after completion of my 1981 Audit of my 1980 1040 return.

Thanks to many people smarter and more dilligent than myself, it took only a short time, less than a year to verify that I was correct and the Auditor completely wrong. Even during the Audit process my Corporate Attorney and CPA agreed that I was correct and the auditor wrong. Then both knowing that the auditor was wrong suggested that I pay the extra amount because fighting it would be more costly, and the chances of winning even in court were small at best, less than 10%.

After hiring a new Attorney and CPA I got totally different answers, and both had some conscience onthe subject. Both actually furthered my research into the matter and the history. Both agreed that the America I had served honorably for 9 years in the Navy existed only in the mind of the idealist who believed that the government was limited by the Constitution. Both supported my idealist philosophy and aided me every way possible.

Good yet bored librarians in the law libraries were also great allies. Once they knew the subject I was searching for they were very helpful, often doing research on their won when I was not even there. As I have often said, I was and am highly blessed among men.

February 18, 1982 I met Trwin Schiff, first hearing him on the radio, 620 AM, and that night attending his meeting. Many valued friendships began that week, and our meetings that finally became research society began from that place. My Attorney reviewed the books and tapes, and assured me that the research and rule of law was properly stated; he did however cautionme that it was the regular policy of IRS to break the law and teh courts to protect them from any justice.

Life was pretty simple with research and petition for peaceful redress until I cam to the point of ceasing from withtholding in 1983; then it got exciting between me and the corporation, I only owned 49% so control had a cowards view and I was required to battle both Corporation and IRS. Yes I was ordered by IRS to single zero withholding, even though everyone knew i was head of household with children. Redress was entirely futile until 1988 when IRS attempted to sieze a house I had previously owned, and placed into trust with a friend as trustee.

That opportunity proved fertile; and in Quiet title, 88-2830, December, 1988, I was acknowledged by IRS and DOJ as having no tax liability, owing no returns, and being uncollectible. That was a great time for peaceful redress, and our unalienable right to contract.

Research, study, and petition for redress continued unabated, even now.

I remain dedicated to peaceful redress; and choose not to even contemplate

the other alternatives.

This case is just one more step in the persuit of happiness through peaceful redress; a concept wholly foreign to our justice system. Like it was said at the end of BRAVEHEART, imprissoning me did not have the effect that the government hoped for; and my parsuit of redress continues.

I am really a simple man with simple goals. Repentance from works that lead to deathor the destruction of the nation is all I am after. It is often cited that America was great while she was good, or because of it; and ceasing to be good would cease the greatness. It has! America is a mere skelleton or shadow of our once greatness because we are a rotting corpse of our once goodness; we turned from being the "NATION WHOSE GOD IS THE LORD" to just greedy mongrels and merchants as cited in Revelation 18. DO YOU HEAR THE WAILING AND GNASHING OF TEETH AS NOONE BUYS THEIR GOODS ANY MORE? I see the Big 3 Auto makers destruction as simply the only possible result of the UNION's greed in love of money and demands for 40+ years to be paid more for doing less; but of course that simply mirrors our Corporate Churches, run and controled by our "woe unto ye lawyers" who like the pastors hide the truth from the people; and lode the people with heavy burdens while they get raises and bonuses for leading us into destruction. The big labor Unions like the Federal Union had a great initial purpose; but along the way in greed for power and profit list sight of that goal; just like the different demon-nations we call religious corporations by concent of man to partake in the fornications, or lusts and benefits of the system of man in direct rebellion against God.

It is comical to hear those passifist lazy slothful ignorant advocates falsely claiming Christianity question why we can not all just get along; muslem, jew, catholic, and Christian. DUH! IT IS REALLY SIMPLE: we are not suppose to get along with those who deny, blaspheme, and insult through lying false doctrines, our rightewas KING and Savior, Jesus Christ. NOT EVER!

It is a false doctrine to teach that we are suppose to submit ourselves to lies and liars; tyrants and terrorists, or king, president, congress and bureaucrat who are not teaching us the word of God and His great Love for us. Every tongue that lies to pass false judgment, against the will of GOD is to be cast down, destroyed, overcome, and completely eliminated from our lives. As long as we willingly surrender to sin in blasphemy against God and Savior our America will continue to be the nation whose god is money and lying lawyers in all sorts of pretenses for profit.

Only in restoring to our goodness inobedience to God will we have any hope of our Amerca created in divine providence returning to its greatness inits goodness. We the people must first get ourselves right to have any hope or right to a nation of right behavior. Election or appointment is not some magical cure got sin and error before GOD; it does however submit those to a greater judgment.

RE DRESS: PUT ON A NEW ROBE, ONE OF RIGHTEOUSNESS: AND CALL ALL OUR ELECTED AND APPOINTED GOVOMIT LEADERS TO DO THE SAME is our only hope for anything other than continued decay into the despotic condition we so richly deserve as a people and a nation. Yes: we will have to get right about our money, usury is still the destroyer of nations. Yes we will have to get right about murder of innocent babies in the womb. Yes we will have to get right about our KING and His name Jesus Christ. Yes we will have to get right inour doctrines from the pulpits and teach God's word and will without the woe unto ye lawyers spin and control.

America can not put on righteousness and loyalty to the KING of kings until you and I do. It all has to start with just one, and build to everyone. How ready are you to be tried in the fire as precious metal; so that you can become paving blocks for the streets of glory? If tried in the balance just where would you stand?

I stand like JOB, having lost all that I worked for and had pride in, except for my great faith, a gift of God and not of myself. Whether my fate is to live out my life in prison or suffer greater lies from those elected and appointed to guarantee my rights is a mere convenience of this dimension called time. None of that can alter my love and loyalty to "NO SOVEREIGN BUT GOD AND NO KING BUT JESUS".

We, as inmates, having nothing carnal and temporal aside from our prison of man can easily sing "I SURRENDER ALL" and pretend we mean it; but most of us greedily hang on to the least simple possession, and friends. We elevate those who have the integrity to maintain contact, and treat us as still human and wanted, over those who for any reason cease their relationship for their own protectionout of fear, or just not actually caring.

I watched this election, knowing that my opportunities for peacefully RE DRESSING our nation in good to help her be great would hang in the balance; and I grieve for the results. At least the appearance is that our people prefer the chains and whips of our self made Egypt to the great contest for liberty in the perfect law of liberty to do the will of GOD. Every Christin who voted for a baby murderer owes God an apology; beg for you forgiveness while ther is still God's Grace abounding.

THERE CAN BE NO PEACE WITH MAN OR GOVERNMENT WHO DENY AND BLASPHEME GOD TO MAKE THE WHOREDOM AND SIN OF THE NATION EVEN GREATER. The yoke of the tyrant will forever grow heavier until the price to live under the yoke exceeds the price to overcome it; and by the grace if God I hope we make it to that time. I do not percieve any GREAT AWAKENING like we had in 1750s to bring about the change of government to protect our freedom of worship in the perfect law of liberty.

HOW ABOUT YOU?
