Federal Prison Camp La Tuna

What a radical idea; being Thankful to God while sitting in Federal prison, unjustly accused, tried and convicted by the government, for which I remain grateful to GOD for allowing us to have created ourselves, to serve our just needs.

Even while our created government acts lawlessly, and Anti-Christ; I remain Thankful to God for being an American. Being in Federal Prison gives me an especially unique perspective of what others around the world have to put up with every day of their lives. Not a very pretty sight!

And I remain grateful, happy, and at peace with my King, my God, and even myself. "As much as possible, live at peace with every man" is an enormous challenge; and I praise God for the ability to overcome even those challenges.

For Lee Greenwood's God bless the USA; my new verse...

And now it is tomorrow

All the things are gone that I worked for all my life

And I get to start again with just my Jesus as my Christ

Still I thank my God above to be living here today

Where the flag still stands for freedom and they can't take that away; HEY!

I am thankful that as I move toward the new advent ures of being a greatgrandfather; I still know the challenges to being a great grandfather. LOrd knows that most of my ideas and goals were lost somewhere in time. Still I am grateful for all my grands, natural, adopted, and just ganged on. Yes some of my added in grands have already made me greatgrandpa; and I am blessed by all who have called me grandpa, and yet shall.

While I often whine and complain about this antique typewriter; it is yet a great blessing, even for this little message.

That whole list of things I hear grown men whine about and counsel them to be big boys are just minor little things I have been blessed to overcome in my persuit of happiness.

My america is still a place where you can persue your happiness in the worship of God and King without much interference, as long as you keep clear of the lawyars and other liars who try to create the illusion that our God of Love, and Righteons King would have started a nation or church where love could be called a hate crime. And in it all we still have the best Nation on the face of the earth; and I am convinced that she and we will recover and restore to our God and King: loving and serving him with great courage and great faith. And this we will do if God allows... I daily pray for our Nation and HIS Church to return to our goodness and our greatness.

Praise, and thanksgiving are great places to start to engage the power of the noble Sovereign God for our healing and salvation... join me please.
